About Shri Sai Satcharitra

Shri Sai Satcharitra is a holy collection of the various teachings of Shri Sai Baba. It also has, in great detail, the divine experiences that the devotees have had with the Great Sai. The unique feature about Shri Satcharitra is that all the events narrated in the book are real, hence the seekers can relate to them which makes for a greater understanding of the underlying message. The original manuscript was written in Marathi but, owing to its popularity, has been translated into multiple languages. The Saicharitra traverses through the multiple phases of the life of Shri Sai Baba and is said to contain the same spiritual essence as the Vedas and Puranas.
